Business Leadership Cohort Program

Web-Based Training

Fall 2026 – Center Directors

The Business Leadership Cohort program from First Children's Finance provides child care center program leaders the opportunity to learn basics of business related to their child care program. The program includes four group cohort sessions and two individual consultations over 3-4 months. Upon completion, participants will receive the Business Leadership Credential.

Schedule

Session 1

The first session includes an overview of the child care industry from a business vantage point and allows participants to delve into the world of enrollment management and how it impacts operations. Participants examine the keys to developing an engaging marketing message.

Session 2

Understanding and managing the finances of a child care operation is critical to long-term viability and sustainability. Participants learn the basics of finance and financial statements.

Individual Consultation 1

The individual business consultation allows participants to examine their individual business by classroom and overall operations. FCF and the participant discuss opportunities/challenges.

Session 3

Staffing is a critical and competitive need for child care centers today. Participants review the basics of acquiring, retaining and developing employees and teachers for their child care program.

Session 4

Not having a good plan is a barrier to success. Participants pull learning from previous sessions and apply it to development of program goals and related action to meet those goals.

Individual Consultation 2

Participants are provided a second consultation to follow up on business analysis and goals.
